PART TWO - YOUR REPRESENTATION

Please use a separate form for each part of the Proposed Submission Draft Local Plan that you wish to comment on.

Q1. To which part of the document does this representation relate?

☒ Policy	☒ Paragraph	☐ Chapter	☐ Figure
--	---	----------------------------------	---------------------------------

Please specify which Policy, Paragraph, Chapter or Figure you are referring to:

Based on the requirements of being Positively Prepared, Justified, Effective and Consistent with national policy, I wish to make the following comments:-

Policy SP8 - Page 59

There is a need for some kind of division which will prevent the unrestricted sprawl of large built up areas merging with adjoining settlements. To do this the Government has placed great importance on the use of Green Belts as in paragraph 79 and 80 of the National Planning Policy Framework. This would apply in particular to the area between the village of Dalston and the new CND.

Policy EC5 – 4.20 - Page 79

Why is Dalston designated as a District Centre and what are the implications when relating to its village status.

Policy HO5 - Page111

There should be a clause added here to state that this type of development will not have an adverse impact on the green infrastructure open space and views from the settlement.

Policy HO6 - Page 113

A clause should be added to state the following;- To promote sustainable development in role areas, housing should be located where it will enhance and maintain the vitality of rural communities. This is in accordance with para 55 of the National Planning Policy Framework which states for example that

–The exceptional quality or innovative nature of the design of the dwelling. Such a design should;

– be truly outstanding or innovative, helping to raise standards of design more generally in rural areas;

– reflect the highest standards in architecture;

– significantly enhance its immediate setting; and

– be sensitive to the defining characteristics of the local area.

HO6 - Page 114

Too much emphasis put on rural workers housing and no mention of housing for other people working in the rural area which will enhance the economic vitality of the area such as Guesthouses. Restaurants, Hotels etc.

Policy HO9 - Page 120

There should be a restriction on the number of houses in multiple occupation in each street so as to not de-value the remaining properties. This may help to overcome the problem where we now have a concentration of HMOs, in particular areas such as Warwick Square/Aglionby Street/ Warwick Road, Stanwix, and Chatsworth and Portland Squares.

Policy HO11 - Page 124

There is no mention in this policy to take into account the views of local residents and the impact on their living conditions and general well-being. Proposals should ensure that there is no detrimental effect on residential amenity either through noise, nuisance, damage to visual amenity or increase in traffic; and There is also no mention of a section which would prevent of the loss of any important green open space.

Policy IP3 - Page 135

A minimum of 2 spaces should be set now without the need for any highways input.

Policy IP SW8 Planning Obligations - Page 144

Once again the cumulative impact of any present and future development should be taken into account within this clause.

- ☒ Yes, I wish to participate at the hearing sessions of the examination

Q8. If you wish to participate, please outline why you consider this to be necessary:

Please note it will be at the discretion of the Inspector to determine the content of the hearing sessions and who will be heard.

I would be interested in participating in the process through the Hearing Sessions based on the fact that I have been involved in the Local Plan from its outset and have an underlying interest in planning in general and planning Carlisle's future in particular.
