Q2. Do you consider that the Local Plan is:

Legally Compliant?

<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
---	-----------------------------

Sound?

<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes, with minor changes	<input type="checkbox"/> No
------------------------------	---	-----------------------------

Q3. If you consider the Local Plan is unsound, is it because it is not:

- ☐ Positively Prepared?
- ☐ Justified?
- ☐ Effective?
- ☐ Consistent with National Policy?

Q4. Please give details of why you consider the Local Plan is not legally compliant or is unsound. Please be as precise as possible.

If you wish to support the legal compliance or soundness of the Local Plan, please also use this box to set out your representation.

Please note that your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation. After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.

Q5. Please set out what change(s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the test you have identified at Q3 above where this relates to soundness. You will need to say why this change will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible:

The Council agree that 800m is an improvement on the original separation distance but in order to protect all individuals we consider that this should be extended to 1000m. The Neurological Department of Aston University consider that "the EN 3 assumption that shadow flicker does not occur more than 10 x rotor diameter is flawed" and it is their view that "that the 10 X rotor diameter recommendation should be increased in the light of emerging science". A planning application for a turbine in this parish was submitted last year with a separation distance of 900m from the home of a young girl who suffered from epilepsy. Had the application been successful it could well have had a detrimental effect on the health of this young person.

Q6. Do you wish to make any comments on the supporting documents, such as the Sustainability Appraisal, Habitats Regulations Assessment, Infrastructure Delivery Plan or evidence base?

Q7. If your representation is seeking a change; do you consider it necessary to participate in the hearing sessions of the examination?

- ☒ **No, I do not wish to participate at the hearing sessions of the examination**
☐ **Yes, I wish to participate at the hearing sessions of the examination**

**Q8. If you wish to participate, please outline why you consider this to be necessary:
Please note it will be at the discretion of the Inspector to determine the content of the hearing sessions and who will be heard.**

**Thank you for your time to complete and return this Representation form.
Please keep a copy for future reference.**
