If you wish to support the legal compliance or soundness of the Local Plan, please also use this box to set out your representation.
Please note that your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation. After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.
I wish to object to Policy HO1 and Appendix 1 (Sites Allocated under Policy HO1) due to the exclusion of my client's land as a suitable site for residential development.
The land the subject of this objection is located in the settlement of Harker and is identified on the plan enclosed.
Harker is accepted by the Council as a sustainable rural settlement by virtue of its close proximity to Carlisle and easy reach of services and facilities therein.

My client's land comprises a site of approximately 0.9 ha of land which would be suitable for an allocation for both residential and employment uses.

The Emerging Carlisle District Local Plan (ECDLP) Submission draft identifies Site R11 in Harker as a preferred location of residential development. It is accepted that the Brownfield nature of this site makes it sequentially preferable, however the it is considered that the Council should consider my clients site as a complementary allocation.

My client's site is located adjacent to an existing commercial site, and would provide a positive extension to this area, by creating additional B1, B2 and B8 units which would improved the sustainability of the settlement.

In addition to the above, the remainder of my clients site should be viewed as a sensible 'rounding off' opportunity for future residential development, beyond the delivery of Site R11.

The ECDLP Spatial Objectives state that the Council will seek: "To promote a sustainable pattern of development which will contribute to building a strong, responsive and competitive economy, to support the vision for managed growth".

The ECDLP Proposals Map however does not support this objective when viewed spatially. It is clear that there a few residential allocations to the north of the City, beyond the major employment proposals, resulting in the majority of workers having to travel from one side of the city to the other. This is clearly a mis-balance of allocations, contrary to the objective to promote a 'sustainable pattern of development'.

The allocation of my client's land for a mix of employment and residential uses would contribute to redressing this balance, would complement the preferred allocation at Site R11 and would enhance the role of Harker as a thriving community in a sustainable location.

In the context of all matters addressed above, my client considers that the exclusion of their site in the Site Allocation process is unjustified and that the Council has failed to 'plan positively' for the development and infrastructure required in this area.

Please be as precise as possible:

☐ Yes, I wish to participate at the hearing sessions of the examination

Q8. If you wish to participate, please outline why you consider this to be necessary:

Please note it will be at the discretion of the Inspector to determine the content of the hearing sessions and who will be heard.
