Subject: Local Plan consultation -- Wetheral

Dear Sirs,

Sorry that I can't access your email return site -- having trouble getting the computer to cooperate.

Ref. developments in Wetheral, I'm pleased to see that it has been recognized that most of the proposed sites present difficulties for the development of housing. Also that the lack of school provision in the village is a distinct disadvantage. Please make sure that any development includes the provision of proper schooling in the village.

Yours sincerely,

P. D. Andrews
