2025/s 000-016055	Laura Waraich	R2 Apprenticeship and Training Assessment Framework contract with Metadata Ltd	Round 2 Apprenticeships are an asset to any organisation, they bring significant benefits, including the route into employment for young people, enablement of progression into careers, provide a motivated and engaged workforce, with the right skills. Apprenticeships are a great way to nurture talent, providing an excellent route for potential candidates to become employed. The candidate can train on the job, gain a qualification, and be paid at the same time. The new government wish to boost training opportunities for young people through an apprenticeship reform in England, with a new growth and skills levy set to replace the existing apprenticeship levy and include new foundation apprenticeships. The need for jobs and skills varies across industries, with the health and social care sector experiencing the highest demand, followed by education, manufacturing, and science and technology. Over time, Cumberland Council are keen to work with providers who can respond to the new growth and skills reforms.
