ACTION: (Cumberland Council) Generic document to be sent across to the Town Deal Board on the purpose of the Town Deal Board before the next meeting, giving insight on the future purpose. When the future of the Town Deal Board is clear, we can recruit (or not) and close no.36. RD provided an insight into a possible future purpose of the board - stakeholder engagement. As the projects are moving to completion, they don't require as much engagement from the board as they did during the first phases of the Town Deal programme. The Town Deal Board is specifically for the Carlisle Town Deal programme, but following the close of the Town Deal, it is possible the group may morph into something else in the future Place strategy.
5	MHCLG 6 monthly report & monitoring return DK presented the update. Report to be circulated with the board. As the report was not ready to be circulated before the meeting, queries are welcomed from the board before 28th May, before the submission to MHCLG. Report no longer needs signed off by the board as per MHCLG guidance but will still be presented to the board for their review.
6	Project Change Controls DK presented the update for the board's information. <u>TD.10 Lighting Up Carlisle</u> Approved change to include additional milestones for the project, so they can be added to the monitoring return and accurately reflect progress. <u>TD.18 Digital and Community Learning Hub</u> Approved change to realign the revenue budget as follows: - To extend the continuation of the BIPC service for a further 12 months (2 posts). - To not proceed with the development of the Digital Co-Ordinator, but retain the delivery budget, enabling the outcomes to be delivered. - To utilise any underspend of funds towards additional library furniture/digital equipment and resources.
